A proposal submitted to the Faculty of Engineering Design & Technology for the study leading to the Degree in partial fulfilment of the requirements for the award of **Bachelor of Science in Computer/Data Science** of Uganda Christian University

SPECIALIZATION TRACK: *Specialization: [Enter Intended
Specialization Track]*

[Enter Primary Advisor]

[Enter co Advisor Name]

[Enter Version Date]

Declaration

I, *[Enter Student Name]*, declare to the best of my knowledge that the work in this proposal is original and has not been submitted before to any university/institution. It is the result of my effort.

Signature: _____

Date: _____

Ethical Generative AI Usage Declaration

Students may use generative artificial intelligence (AI) ethically as a “study buddy” or assistant rather than a replacement for critical thinking. This includes citing AI use and fact-checking all outputs to maintain academic integrity.

For purposes of this assignment, the following shall guidelines shall apply.

- i. Generative AI may be used for brainstorming, and generating ideas to improve your work. You may also use AI for literature search, and summarizing journal papers for quick analysis and assessing relevance of publications. However, once the relevant publications have been identified, a student is expected to fully review the selected publications, identifying problems addressed, methods used, gaps identified and recommendations made.
- ii. Where AI has been used as guided in (i) above, full disclosure of how it has been used should be made in the appendix C, including how AI was used, the AI tools (including mode versions), and a compilation on major AI prompts used.
- iii. NO GENERATIVE AI CONTENT IS ALLOWED IN THE FINAL SUBMISSION. The final submission SHOULD be your original work.

A. Declaring the non-use of AI for content generation

I, *[Enter Student Name]*, declare that no content generated by AI technologies has been used in this proposal.

Signature: _____ Date: _____

B. Acknowledging the use of AI as a study buddy

Please refer to Appendix C for the complete declaration of AI usage for generating ideas, brainstorming, literature search, and summarizing only to improve your work.

Approval

This proposal has been submitted for examination with approval of the following advisors/supervisor.

Department of Computing & Technology
Faculty of Engineering Design & Technology
Uganda Christian University

Chapter 1

Introduction

— *Insert Chapter 1 content here* —

Sample reference [1]

1.1 Background

1.2 Problem Statement

1.3 Research Objectives

State the general objective and Generate 3 SMART Specific Objectives

Specific, SMART (Specific, Measurable, Achievable, Relevant, Time-bound) goals the project aims to address.

1.3.1 Specific Objective 1

1.3.2 Specific Objective 2

1.3.3 Specific Objective 3

1.4 Justification

Chapter 2

Literature Review

— *Insert Chapter 2 content here* —

Please develop a proper literature review plan and chronologically discuss it.

Chapter 3

Methodology

— *Insert Chapter 3 content here* —

Chapter 4

Expected Results

— *Insert Chapter 4 content here* —

Briefly explain the kind of results expected from your proposed research

Bibliography

Appendix A

Budget

[Please enter the budget here]

Appendix B

Research Project timelines

– Please propose how the project will be managed from start to finish within one year

You may break it down into phases and identify the different tasks, deliverables, dependencies and duration for each phase and tasks.

A Gantt Chart may be useful to show the phases, tasks and dependencies on one page.

Appendix C

Declaration of AI use

Note: Briefly explain the ways that you have ethically used AI as your “study buddy” according to the guidelines stated in section . Explain which AI tools you have used and for what purposes. Describe what output from the tool/service and the prompts used.

Declaration Statement:

I, *[Enter Student Name]*, declare that I used

- i. *(Add AI tool) to (ADD how used) and (ADD the prompt used).* I modified the outputs in *(ADD ways).*
- ii. *(Add AI tool) to (ADD how used) and (ADD the prompt used).* I modified the outputs in *(ADD ways).*
- iii.please add as many items as used

Signature: _____ Date: _____

Appendix D

List of 10 Major Journal Publications reviewed

List of 10 Major Journal publications reviewed in order of their relevance to your research, the journals, impact factor. Three of the publications should be review papers, five of the publications should be journal articles, and three of the publications may be conference proceedings

Appendix E

Scopus Search Strings used during the literature review

please submit a compilations of Scopus search strings and keywords used to arrive to the publications reviewed

Appendix F

Research alignment with specialization, SDG, NDPIV & Vision 2040

Please discuss, how your research aligns with your programme specialization, national agenda (Uganda NDPIC, Vision 2040) (or allign with you national goals if you are not a Ugandan) , and global agenda (SDGs)

F.1 Alignment with programme specialization

For Computer science the specializations include

- i. Software Engineering
- ii. Artificial Intelligence and Robotics
- iii. Systems, Infrastructure & Cybersecurity)
- iv. Game Engineering & Augmented Reality

For data Science, the specializations include

- i. Artificial Intelligence & Machine Learning
- ii. Big Data & Cloud Engineering
- iii. Business Intelligence & Financial Analytics)
- iv. Computational Biology

Please align with only one specialization track (and delete the rest). Most likely based on the the elective courses you are offering. Please align with only one specialization track (and delete the rest). Most likely based on the the elective courses you are offering. Please align with only one specialization track (and delete the rest). Most likely based on the the elective courses you are offering. Please align with only one specialization track (and delete the rest). Most likely based on the the elective courses you are offering. Please align with only one specialization track (and delete the rest). Most likely based on the the elective courses you are offering. Please align with only one specialization track (and delete the rest). Most likely based on the the elective courses you are offering.

- F.2 Alignment with Sustainable Development Goals (SDG)**
- F.3 Alignment with the National Development Plan IV (NDPIV)**
- F.4 Alignment with the Uganda Vision 2040**

Appendix G

Algorithms, Code of interest

– Please enter any algorithms and code —if any

Appendix H

Other useful figures

– Please insert any extra figures deemed relevant to your research but did not have space to be incorporated in the main text.

Appendix I

Research poster layout

- Please include a one-page-poster layout summarizing your research concept, the problem begin addressed, the objectives, the alignment with national and global agenda, the proposed methodology and expected results. you may include two major references used as a basis for your research.
